Artnet-DMX Control System

Artnet-DMX-8S

Feel grateful, Fighting Innovation, win-win

Manual

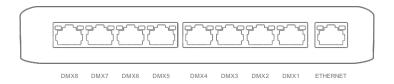

I 192×W164×H36mm

Product Introduction

- Ethernet Control System based on the Artnet protocol.
- Convert the Artnet network data package into DMX512 data.
- Adopting high-speed ARM processor, stable and reliable.
- Supports RJ45 network interface and DMX512 with RJ45 output interface.
- With TFT 2.4" LCD screen and 4 touch keys, very easy for setting operation.
- Update firmware via SD card or network.
- Support program record.
- Support offline playback.
- Compatible with the light software based on Artnet Protocol.
- · Widely used in the LED dot matrix and the stage lighting control network in needing lots of DMX512 data.
- Suitable for TV station recorded scene, stage performances, entertainment and so on.

Wiring Diagram

Connect ArtNet-DMX-8S to the Computer

This product is compatible with all the ArtNet software in the market. Here take MADRIX as an example:

1. Install the Madrix 3 software in the computer, the icon on the desktop :

- 2. Use the equipped adapter to power ArtNet-DMX-8S.
- 3. Connect ArtNet-DMX-8S and computer via the cable.
- 4. IP Setting: This control system is compatible with random network segment. According to the ArtNet protocol, 2.X.X.X or 10.X.X.X can be added in the computer (X means arbitrary value), methods as below:

4.1 Open the Network, click "Properties" button of the TCP/IPv4 protocol.

4.2 Click "Advanced".

ITECH

4.3 Click " Add".

4.4 Add the IP address 2.X.X.X or 10.X.X.X (X could be arbitrary value).

4.5 Interface of adding successful, click "OK" and exit.

5. Open Madrix 3 software, choose "preferences" > " device manager" from menu.

In "device manager" dialog, choose "ArtNet" tab, tick "enable" and click search particle.

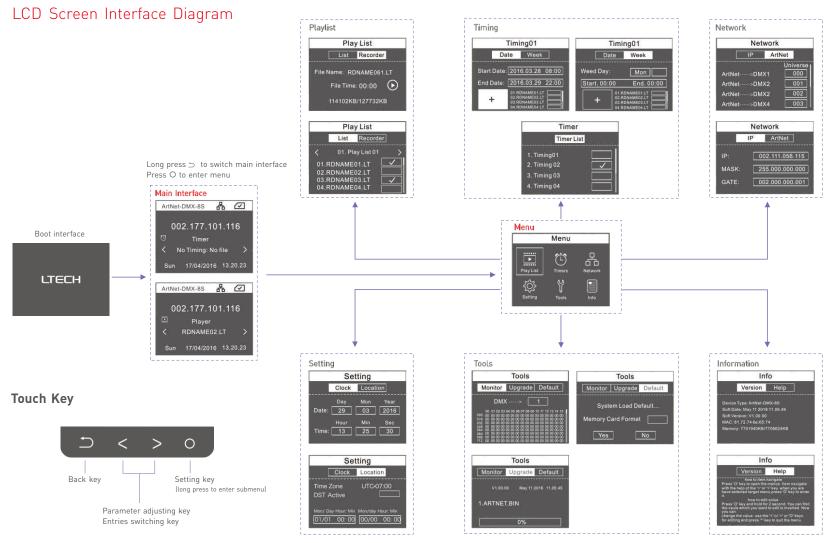

Click the tab of "DMX devices", set port status to "ON" if connected successfully. Now, you can use computer to control lamps via ArtNet-DMX-8S.

Attention

- 1. The product shall be installed and serviced by the qualified person.
- This product is non-waterproof. Please avoid the sun and rain. When installed outdoors, please ensure it is mounted in a water proof enclosure.
- Good heat dissipation will prolong the working life of the controller. Please ensure good ventilation.
- Please check if the output voltage of the LED power supply used comply with the working voltage of the product.
- Please ensure that adequate sized cable is used from the controller to the LED lights to carry the current. Please also ensure that the cable is secured tightly in the connector.
- Ensure all wire connections and polarities are correct before applying power to avoid any damages to the LED lights.
- 7. If a fault occurs please return the product to your supplier. Do not attempt to fix this product by yourself.

Warranty Agreement

- 1. We provide lifelong technical assistance with this product:
 - A 5-year warranty is given from the date of purchase. The warranty is for free repair
 or replacement if cover manufacturing faults only.
 - For faults beyond the 5-year warranty, we reserve the right to charge for time and parts.
- 2. Warranty exclusions below:
 - Any man-made damages caused from improper operation, or connecting to excess voltage and overloading.
 - The product appears to have excessive physical damage.
 - Damage due to natural disasters and force majeure.
- Warranty label, fragile label and unique barcode label have been damaged.
- The product has been replaced by a brand new product.
- Repair or replacement as provided under this warranty is the exclusive remedy to the customer. We shall not be liable for any incidental or consequential damages for breach of any stipulation in this warranty.
- Any amendment or adjustment to this warranty must be approved in writing by our company only.
- ★This manual only applies to this model. We reserve the right to make changes without prior notice.
